

Skilled Trades Training Funds

What is the Skilled Trades Training Fund

Why is it beneficial to my business?

STTF provides funds to companies for short term, in-demand training. Companies of all sizes have benefited from STTF, anywhere from three employees to over 1,000.

While the STTF has supported creation of over 400 new apprentices, training is not limited to "skilled trade" occupations. Training has included welding, CNC operator, CNC programmer, robotics, IT training, electronic health records, and on-the-job training for individuals to be hired.

The STTF provides competitive awards for employer responsive training that enhances talent, productivity, and employment retention while increasing the quality and competitiveness of Michigan's businesses.

The STTF ensures Michigan's employers have the talent they need to compete and grow.
