

# LMC NATURAL SCIENCES NEWSLETTER

DECEMBER 1, 2011

LAKE MICHIGAN COLLEGE

Volume 1, Issue 3

## LAB UPDATES

### SAFETY TIP OF THE MONTH

Remember to keep your feet fully covered and protected when

you're in the lab. No open toed shoes or flip flops please.

### KNOW YOUR LAB

We will be putting safety-related handouts in a bin outside the Natural Science Stock Room, Napier C-309, beginning this week.

Lab safety, along with general and seasonal safety tips and advice will be featured.

### WE WANT YOUR INPUT

IF YOU HAVE SOMETHING YOU THINK MERITS MENTION IN THE LMC SCIENCE NEWSLETTER, LET US KNOW.

CONTACT: SCOTT MURTON

[murton@lakemichigancollege.edu](mailto:murton@lakemichigancollege.edu)

## LAB SAFETY AGREEMENT REMINDER

### EATING IN THE LAB

OR SHOULD WE SAY *NOT* EATING IN THE LAB?

NOW THAT WINTER IS UPON US, IT'S TEMPTING TO BRING A HOT CUP OF COFFEE OR MAYBE SOMETHING TO MUNCH ON INTO THE LAB ROOM. THE PROCEDURE OF THE NATURAL SCIENCES DEPARTMENT DOES NOT CHANGE SEASONALLY. NO FOOD OR DRINK.

## LMC SCIENCE NEWS

PICTURED BELOW IS DAVE PATRIZE, WHO ANNUALLY VISITS LMC TO PERFORM MAINTENANCE ON OUR MICROSCOPES. HE DOES A GREAT JOB, BUT WE CAN HELP OUT BY USING THE SCOPES

PROPERLY. MAKE SURE STUDENTS KEEP THE LENSES CLEAN, AND HANDLE AND STORE THE SCOPES CAREFULLY.

## THIS N THAT

We are fortunate to have Chemistry Lab Coordinator Lisa Sanders and Biology Lab Coordinator Niki Rhew here at LMC.

Why not let your hard working Coordinator know that you appreciate her efforts.

## NEW TECH

THIS NEW FEATURE OF THE BIOLOGY LABS AT LMC IS A MICROSCOPE THAT WILL HELP STUDY, AMONG OTHER THINGS, GENETIC CHANGES IN BACTERIA, THROUGH THE USE OF VARIABLE COLOR FLUORESCENT LIGHTING. IT CAN RELAY IMAGES TO A COMPUTER OR CLASSROOM SCREEN, AND CAPTURE STILL OR MOTION IMAGES VIA THE ATTACHED DIGITAL CAMERA (TOP).
